BOLLARD

MODEL : BOLLARD

We offer extremely high quality automatic bollards that meet the relevant standards in their range of impact resistance in each category. Our Bollards will be secured in the housing firmly when raised or lowered.

All Bollards will have fluorescent strips and LEDs on the periphery for visibility from a distance. Manual and automatic Bollards consume less space and disappear in the ground compared to road blockers. State-of-the-art facilities easy installation, maintenance and replacement.
