HAND HELD SEARCH LIGHT DAZZLE 2010

CREATING A REVOLUTION IN SEARCH LIGHTS

MODEL : DAZZLE 2010

Length of the beam

It can detect group of persons in camouflaged dress at 500 meters when seen through a binocular on a clear night. The beam can be seen from 1Km.

Shoulder Strap

It has a provision for attaching a shoulder strap which can bear the weight of the HHSL (Hand held search light). The end to end length of the strap when adjusted to its maximum is 1.3meters.

Color

HHSL is provided in black color

Weight

The weight of HHSL including its battery and charger is approx. 3 Kgs.

Ruggedness

It is impact and water resistant. It has a suitable padding on the underside of the body to absorb shock and is functional in heavy rains.

Duration of Operation

HHSL can operate continuously for at least 170 minutes on a fully charged battery. Its glow does not reduce during the period of operation.

Control Switches

The control switches are suitably placed for easy operation.

Visual Indications

There is a provision for giving visual indications for the following:

- Mode of operation in which HHSL is operating.
- Warning for low battery charge.
- Indication for charging in process.
- Indication for DC blown fuse.

Operating Temperature

It operates in a range of -20°C to +50°C.

Power Source

Lithium Ion battery

Battery Charger

Built-in SMPS charger. It can charge a fully discharged battery to full charge in 9 hours. It also has auto cutoff for disconnecting the battery from charger after its fully charged.

Light Source

High intensity discharge metal halide lamp of 35 watts that gives the white beam.

Body of HHSL

The body of HHSL is made of advanced engineered plastic. The entire body is molded as one piece with integrated carrying handle molded to the body.

Add-on Options

- Remote control to switch the light on/off from 100-150 meters' distance.
- Tripod stand.
